Integrierte Schaltkreise

Dies ist unsere Leitlinie.
Keine Gürteltasche, keine Kabel, keine Probleme,
sondern wirklich kabelloser Betrieb.
Licht ohne Kompromisse!

Keine Beeinträchtigung der Sterilität.
Ohne Kabel oder Akkupack am Gürtel.

Head-mounted circuit technology

That's our mission statement.
No cables, no hassles. Lose the optical cables
and belt pack cords and go cordless without
sacrificing basic operating light needs.

Does not interfere with sterility.
Without cables or battery belt packs,
it's kept safely above the neck.

Quiet-Cool™ Kühlkörper-Technologie

Kühl und leise

Um unnötiges Erwärmen zu vermeiden, wird die LED mithilfe einer firmeneigenen Technologie sofort gekühlt. Wir haben außerdem das Gehäuse so gestaltet, dass es mögliche Restwärme selbst ableitet.

Lüfter brauchen mehr Strom und dadurch große Akkus, die an der Taille des Benutzers befestigt werden müssen. Hiermit gehören die Lüfter der Vergangenheit an.

Quiet-Cool™ Heatsink technology

Cool and quiet

Proprietary technology is used to cool the LED instantly, avoiding the potential for unnecessary heat buildup. We also designed the housing itself to manage any remaining thermal dissipation.

Fans also demand more power, requiring large batteries attached to the waist of the user.
